

DINA DESTIYANA

DOCUMENT CONTROL • PROJECT
ADMINISTRATION

Professional Portfolio

Nearly 19 years of professional
experience across Document Control,
Document Management, Project
Administration, Administrative Support,
Customer Service and Sales.

Target Roles

Document Control Specialist • Document Management • Project

EXPERIENCE

2007-2026

DOCUMENT CONTROL

15+ years

TOOLS

**DACS EDMS • Aconex
• SharePoint**

Confidentiality: All project samples in this portfolio are illustrative/dummy examples created for portfolio demonstration. They are not copies of confidential project-controlled records.

A long-term career built around document traceability, coordination and follow-up

Experience across oil & gas, energy, construction, offshore wind, property, telecommunications and financial services. The strongest specialization is project document control, supported by project administration and stakeholder coordination.

2007-2008	Financial Consultant	Prudential Indonesia
2008-2009	Personnel Representative / Administration	Telkomsel
2009-2011	Administrative Office Specialist	PT Mulia Realty Batindo
2011-2026	Document Controller / Project Support	Saipem S.p.A. / PT Saipem Indonesia

CORE DOCUMENT CONTROL CAPABILITIES

Document lifecycle control	Registers & tracking	Submission & transmittal
Creation • review • approval • revision • distribution • archiving	MDR • drawing/register logs • status monitoring • revision control	Incoming/outgoing transmittals • review follow-up • controlled distribution
Project coordination	Project administration	Systems & software
Clients • contractors • engineering • subcontractors • stakeholders	Reports • meetings • minutes • action items • correspondence	DACS EDMS • Aconex • SharePoint • ShareCat • Excel • Word

Portfolio structure: career experience → Saipem project assignments → project-specific illustrative document-control artifacts.

15+ years of project document control & project support

Document Controller — Mar 2011 to Jun 2026 • Karimun Regency, Riau Islands, Indonesia

Managed project documents through the document lifecycle, maintained registers and tracking records, controlled revisions, coordinated submissions/reviews/approvals/transmittals, distributed controlled documents, and supported project teams with retrieval, reporting and document-related administration.

SELECTED RESPONSIBILITIES

- Maintain accurate document registers, logs and tracking records.
- Control document revisions and ensure the latest approved versions are available to relevant teams.
- Coordinate submissions, reviews, approvals and transmittals with project stakeholders.
- Monitor document status, outstanding reviews, overdue submissions and action follow-up.
- Maintain organized electronic and hard-copy filing systems.
- Work with DACS EDMS, Aconex, SharePoint, ShareCat, Microsoft Excel and Word.

PROJECT ASSIGNMENT TIMELINE

Mar 2011–Oct 2011	SKY 1	Construction & Yard Facility
Nov 2011–Dec 2011	ICOEEP	Iraq Crude Oil Export Expansion
Jan 2012–Dec 2014	AL-Wasit	Arabiyah & Hasbah Onshore / Offshore Facilities
Jan 2015–Feb 2017	Jangkrik Complex	FPU-EPC-1
Mar 2017–Nov 2018	Tangguh Expansion	Project / BP Indonesia
Sep 2019–Apr 2020	Merakes Development	Project / ENI East Sepinggan
Nov 2020–Oct 2023	NNG	Neart na Gaoithe Offshore Wind Farm
Nov 2022–Dec 2023	Scarborough	Development / Woodside Energy
Nov 2023–Mar 2025	COMP2	Project / Qatar Gas
Jun 2025–Jun 2026	Tangguh-UCC	Project / BP Indonesia

OVERLAP NOTE: NNG and Scarborough are intentionally shown with overlapping dates. Scarborough was handled for several months while the NNG assignment was still active; the overlap represents concurrent project responsibilities, not a career gap.

Tangguh - UCC Project

Jun 2025 - Jun 2026 • Document Control / Project Support

Most recent Saipem project assignment supporting project documents, drawings, registers and contractor submissions, with controlled distribution and archiving through SharePoint and document-management workflows.

PROJECT-SPECIFIC RESPONSIBILITIES

- Manage project documents, drawings, registers and contractor submissions; maintain accurate and current records.
- Track, distribute and archive documents through SharePoint and support controlled hard-copy requirements.
- Coordinate shop drawings, weld maps, method documents, test packages and contractor reports for review and approval.

COMP2 Project

Nov 2023 – Mar 2025 • Document Control / Project Support

Saipem project assignment supporting the project documentation lifecycle, document numbering, revisions, distribution, filing, archiving and coordination with clients and subcontractors.

PROJECT-SPECIFIC RESPONSIBILITIES

- Manage receiving, tracking, distribution, filing, archiving, revision control and document numbering.
- Coordinate approved documents with internal teams, clients and subcontractors.
- Maintain accurate project records and support controlled document circulation.

Scarborough Development - Woodside Energy

Nov 2022 – Dec 2023 • Document Control / Project Support

Additional Saipem project assignment handled concurrently for several months while NNG was still active. Scope included technical documentation, transmittals, correspondence, site instructions, TQs/RFIs, reports, subcontractor documentation and final dossiers/MRB.

OVERLAP NOTE NNG ran Nov 2020–Oct 2023. Scarborough was handled concurrently for several months, so the overlapping dates reflect concurrent project responsibilities.

PROJECT-SPECIFIC RESPONSIBILITIES

- Manage technical/project documentation, registers, revisions, transmittals and correspondence.
- Control fabrication shop drawings in DACS EDMS and PAGE EDMS and issue engineering comments/technical information to subcontractors.
- Prepare final documentation dossiers / MRB and support document integrity and audit readiness.

NNG / Neart na Gaoithe Offshore Wind Farm

Nov 2020 – Oct 2023 • Document Control / Project Support

Offshore wind project assignment with responsibility for controlled documentation, fabrication shop drawings, transmittal/review registers, client liaison and final documentation dossiers.

PROJECT-SPECIFIC RESPONSIBILITIES

- Maintain document control systems and fabrication shop drawings within DACS EDMS and PAGE EDMS.
- Manage transmittal registers, review registers, technical documentation and final documentation dossiers.
- Act as liaison with the nominated client and coordinate document issuance to subcontractors.

Merakes Development Project

Sep 2019 – Apr 2020 • Document Control / Project Support

Development project assignment combining document control with project assistant support, including deliverables, shop drawings, transmittals, TQ tracking, meetings and day-to-day team coordination.

PROJECT-SPECIFIC RESPONSIBILITIES

- Manage deliverable documents/drawings, shop drawings and transmittal registers.
- Track technical queries and document receiving.
- Support meeting agendas/minutes, conference calls and day-to-day project administration.

ICOEEP (Iraq Crude Oil Export Expansion Project)

Nov 2011 – Dec 2011 • Document Control / Project Support

Saipem project assignment focused on receiving, registering, checking, transmitting, filing and archiving project documentation and drawings in line with company procedures.

PROJECT-SPECIFIC RESPONSIBILITIES

- Receive and register project documentation and drawings.
- Check document details before controlled transmission and filing.
- Track outgoing documentation and maintain retrievable project records.

PRU-003	Prospect C	Application supp	APP-003	Policy admin	Confirm status	(

These examples demonstrate transferable skills in controlled records, follow-up, data accuracy, customer/stakeholder coordination and reporting.

What I bring to a project team

A structured and practical approach to document control, coordination, follow-up and administrative support—developed through long-term experience across project environments.

CORE STRENGTHS	
Traceability	Strong attention to document status, revision history, numbering and controlled distribution.
Coordination	Comfortable coordinating with clients, contractors, engineering teams, subcontractors and internal stakeholders.
Follow-up	Experienced in review tracking, overdue submissions, comments, action items and status reporting.
Project support	Able to combine document control with meetings, correspondence, reporting and day-to-day project administration.
Systems	DACS EDMS, Aconex, SharePoint, ShareCat, Microsoft Excel and Word.
Confidentiality	Experienced in handling project records with structured filing, controlled access and careful information management.
